H. K. MACOMBER, M. D.,

PACIFIC COAST. San Luis Obispo Land Contest San Francisco, Aug. 31.—The hearing of the contest between Frank Lynch and J. G. Connors for a title to certain lands in San Luis Obispo county was closed yesterday before Receiver Chamberlain in the United States Land Office. The witnesses for the plaintiff were statements of two alleged settlers were also offered in evidence for the defense. gration Association, and Wilson F. Smith, special agent of the General' Land Office in California. Both of

these witnesses had been upon the land in contest, and both testified that it is not in any sense timber land. At the close of the testimony yesterday plaintiff submitted an affidavit setting forth in effect that he had been taken by sur-prise by the evidence introduced by the government. The evidence of the spe-cial agent really knocked plaintiff's claim into a hopeless condition. Plain-tiff asked for a continuance in order to btain further testimony from witnesses in San Luis Obispo county. The de-fense objected to the motion on the ground that defendant could not afford ground that defendant could not afford to send all over San Luis Obispo county for rebuttal testimony; that plaintiff had had full knowledge of the time of hear-ing and should have been prepared to present his full case. The Receiver promptly overruled the motion for a continuance, which he held was plainly another dodge to keep settler Connors dancing attendance upon the case until his means should become exhausted and he refused to abandon the suit. Plaintiff's counsel stated that they would appeal from the ruing of the Receiver, which appeal, if made, will only be con-sidered by the Land Department when the full testimony in the case is before

NOBODY CAN DENY.

Consumers can depend upon the NEW ENG-LAND BAKING POWDER as being exactly as represented. It is Cream of Tartar and Bi-carbonate of Soda of perfect purity, scientific-ally combined; NOTHING ELSE.

The price of the NEW ENGLAND BAKING POWDER justifies the use of the very best materials. Consumers pay a fair price for the best and get it.

It is self-evident that Baking Powders represented to be composed of the same materials as the NEW ENGLAND, and which are sold to selves are worth, cannot be pure.

The large demand for NEW ENGLAND BAKING POWDER, and consequent failing off in
sales of adulterated and inferior powders, has
developed a spitefulness on the part of some
manufacturers and dealers. Finding that the
quality of the NEW ENGLAND cannot be successfully attacked, new brands and close imitations, represented to be as good, are put on
the market. With these they endeavor to
tempt dealers with low prices, and thus impose on consumers. pose on consumers.

THE 41LEN WOOD is universally recognized as one of the best and most attractive hotels in the State. It occupies an entire block of two and one-half acres, centrally located, with pleasant surroundings in the way of fruit and ornamental trees, flowers and shrubbery, around the building, on both floors, are broad balconies, forming fine promenades, aggregating a quarier of a mile in length, part of which are encased with glass and trelised with vines. The sunlight reaches every room, and they are all easy of access from broad halls and balcony. Batha and closets, electric bells, and all the modern improvements to be found in a first-class hotel. Open grates and stoves afford opportunity for fires when desired.

of Bismarck.

Democratic management is illustrated in the case of the present Pennsylvania Legislature. It has been in session 236 days at a total cost to the State of over \$700,000, and there are no signs of adjournment. The majority probably feel that this is their last chance, and they will draw the session out indefinitely. Pennsylvania don't often indulge in the session the content of the companies of the Indianal legislature in the Columbus (Ga.) Enquirer, Aug. 10.

We are told that there is a gentleman living across the river, in Brownville, who is the father of twenty-eight children. He has been only once married, and he, as well as the mother of the proceedings of the Indiana legislature for the same paper. There was an exciting senatorial race then in progress, and Mr. Villard began active life as a newspaper wille, who is the father of twenty-eight children. He has been only once married, and he, as well as the mother of life and vigorous and healthy. Of these children twenty-three are dead, all of them having lived to be several years of age, one of them nearly grown. Among them were four pairs of twins, born within six years of twins, born within six years of twins, born within six years of the twins, born within six years of twins, born within six years of the children.

LETTERS FROM THE PEOPLE.

[This is the Trues-Munon's Public Forum upon which all who have anything pertinent imely and interesting to say, on topics of curent interest, may stand and give their independent opinions to the people; the writers ening responsible for their own sentiments and interments. Correspondents are politely proed

To the Editor of the Times .- SII We have, properly and usefully, a high school. This is, like the other publi schools, supported by the tax payers In looking over the curriculum of study in that institution, I find prominence given to the Latin and Greek lan. uages. Now, in the name of reason why should the people of Los Angele be taxed for the instruction of a fev pupils in these musty dead languages It may be said that the high school is designed in part to fit pupils for the University, and that institution demands a preparation in these languages Then away with Latin and Greek from the University! But if a knowledge of these languages be demanded by the University, let people buy this instruc tion outside of the public schools

There is no sense in compelling peopl o pay taxes for such rubbish. In this city we are told that a large number of children are unable to find Los Angeles National Bank sittings in the primary public schools, while a teacher in the high school is paid \$1,250 per year to teach Latin and Greek to a dozen or two students. This sum would nearly pay two primary teachers for teaching a hundred pupils in the elementary branches of an Eng lish education. In an address at Harvard Commence

ams, this feature of our educational system is severely and justly attacked and I may be allowed to use some o his arguments without being charged with plagiarism. Three centuries ago the grammatica study of these two languages was the basis of all education, and in the most of our colleges it is still the basis of it. To a clergyman a knowleege of Hebrew Latin, and Greek may be necessary

To the lawyer, druggist and physician a knowledge of Latin is perhaps necessary. But the people should not be taxed to educate lawyers, ministers or doctors. In this active, bustling, mod ern life, full of living issues, we should educate our children for its duties and responsibilities. A superficial knowledge of two or three dead languages does not fit pupils for the duties of modern life, and the time spent on them is merely thrown away, In the study of these tongue our mother tongue is too frequently ignored. A complete knowledge of English literature and composition i On more than one occasion during the last 3000 years the barbaric hordes of the first importance, where we can find the choicest thoughts of human mind and the most perfect forms of hu-Dakota gives some valuable information which should be carefully read by those who contemplate or have friends contemplating a location in the northwest.

parting then saying that if she felt so disposed she could leave at an earlier hour than the rest | Santa Barbara Press.] of the company.

Dr. Linn was in a stupor, and amount of work done there in former times. in some manner, which was never perfectly explained, the bed-clothes had taken fire. He was ill for a number of days. His timore to Washington, with no life was saved apparently through his wife's presentiment, which I contemplated that worthy's forthink was as remarkable as any on record. Mrs. Linn related the easy mind. He had nearly reasfacts to Mr. Webster. in my oned his suspicious fears away presence, on his calling the uext morning. His observations after Mrs. Linn had finished the nar-Washington, when Mr. Webster ration of her first impulse to felt his courage oozing out of his leave the President's table, her finger-ends as he thought what a struggle to repress it, the growth of the presentiment till it overmastered her, the ride home-ward him and roughly demanded ward, her anxiety for greater his name. It was given. Then haste, her bursting into the room, he wanted to know where he was ter husband's danger and rescue-to which Mr. Webster listened to know where he going. "To Washington; with absorbing attention-were characteristic of the man-solemn and impressive beyond my abil-

ity to repeat." Vast numbers of cows are ruined every year by the carelessness, neglect and brutality of milkers. When milkers go to milk they should understand that it means business. A poor milker should not be employed at any price; the person who has no more sense than to grain and the spanthan to strike and maltreat a cow should be kicked out of the milk- have ordered the construction of should be kicked out of the milkyard. The cow should be made to
feel perfect confidence in the
milker's good intentions, so as to
keep as free from excitement as milker's good intentions, so as to keep as free from excitement as possible. Cows that are frightened, that are kicked and beaten for every misstep, not only fall off greatly in their yield of milk, but their milk is rendered unwhole ome, and often so as to cause disase and death to persons partaking of it. The quantity of milk a ow gives depends much upon the node, time and regularity of nilking.

is to consist of twenty-six trucks, containing ammunition, stores and food; engineers' workshop and telegraph plant, and several field guns. It will be propelled by two heavily armored locomotives, one at each end, and will have a crew of nearly two hundred men, who will sleep on board their strange craft if required.

GRANULA

PREPARED FROM WINTER WHEAT, Containing all the nutritious elements of that grain, and is the best food made for invalids and children. It is a Twice Cooked Food, ready for immediate table use, and yet will keep in a dry place for years unaltered in quality. Unequaled as a diet for cases of nervous exhaustion and deblity, constipation and dyspepsis. Has been tested for years by Dr. J. O. Jackson, in Our Home Hygienic Institute, upon all classes of invalids, with remarkable success. It is one of the cheapest foods in use, a pound of it containing more absolute nutriment for brain and body than an equal weight of any preparation in the market.

As a food for children it is unsurpassed.

Ask your Grocer or Druggist for it, and if not kept by them,

HOUSE-FURNISHING GOODS, ETC,

WE BRING CLADITIDINGS!

HEALTH restor she life prolonged to suffering humanity, by the most wonderful curstive agents ever discovered. I invite the sick, no matter what their diseases may be, to call and investigate for themselves before abandoning all hope, for it will cost you nothing. I give no encouragement unless there is a fair prospect of making a cure. I will endeavor to be candid in my opinion, and reasonable in my charges, I claim not to cure everybody, but to cure all that can be cured. I am formerly from New York city, and a graduate of one of the best medical colleges in the United States, and a most thorough Electrician, and have had many years successful practice in the treatment of both acute and chronic diseases. To remove all doubts and convince my patients that I claim nothing but what I am, I refer to my diploms and the numerous recommendations in my possession, which will always be ready for inspection at my office. I HAVE NO ONE CURE-ALLI nor do I make a hobby of any one mode of treatment. I use electricity or medicines or both, as cases may require. I find he cause of disease, remove it, and nature, assisted by medicinal remedies properly applied, will promote a cure without fail. TO THE LADIES. To the ladies I would say: You, whose sufferings have become intolerable, and who have suffered a thousand deaths from those diseases occamon to your sex, give me a call, for I CAN JURE YOU WITHOUT FAIL, and make your lives once again worth living for. And all consultations will be strictly private and confidential. YOUNG MEN. To those young men who are suffering from year to year, and whose vital powers have become inpaired, and nervous system unstrung and broken down, and are suffering all the horrors from the effects of youthful follies; COME AND SEE ME. I have a sure preventative of premature decay and early death. To those who from indiscretions have contracted private diseases and are desirous of being cured, come without fail, for I can guarantee you a speedy cure. I trest with success all diseases of the Throat,

CERTIFICATE

Water Analysis.

San Francisco, September 18, 1882.

For Mr. Victor Beaudry, Los Angeles:

I have carefully analyzed the sample of water—marked as under—and find the following to be the proportions in every 100 parts:

[Mark of sample, Los Angeles.]

Solid residue, 29.16 grains per United States gallon. gallon.
Chlorine, 2.39 grains per United States gallon.
Ammonia (free and combined), .085 milli-Ammonia (free and combined),
gram per litre.
Albuminoid ammonia, .12 milligram per litre.
The water does not indicate the presence of any
injurious ingredient in abnormal quantities, and
is a good quality of water for dictetic purposes.
It is free from any sewage contamination.
Respectfully submitted,

— THOMAS PRICE, M. D.

NOTICE. To whom t may concern:

I take pleasure to lay before the public the above certificate of analysis of the water from BEAUDRY WATER WORKS

=1000:

FINE BUILDING LOTS FOR SALE! In various parts of the city,

\$100, \$200, \$300, \$400, \$500, \$600, \$700, \$800, \$900 WATER SUPPLY. water, as may be seen by the analysis published above. The present capacity of the pumping machinery is 75,000 gallons per hour, or 1,870,000 in twenty-four hours.

The source of supply is ineshaustible. During last winter I laid 4000 feet of 8-inch cast-iron pipe. And I have just completed the laying of 4200 feet more of 8 and 12-inch cast iron pipe, and in a few weeks I will commence the laying of 4000 feet more of 8-inch and 12-inch pipe; also, will lay smaller sizes in considerable quantity, as they may be required.

Also 700 acres hill land at \$3 to \$10 per acre Apply to

WOODEN and WILLOW WARE Brooms, Brushes, Cordage, etc.,

221 Los Angeles Street,

LOS ANGELES, CAL. FOR SALE.

Store and Stock. IN A VILLAGE.

-AND FIRET-CLASS-

Property for Investment.

5 Acres in East Los Angeles, one square from Downey avenue; beautifully situated for residences, and well adapted to the growth of any and all the productions of Southern California; set to trees and small fruits; apples, pears, peaches, plums, lemons, oranges, apricots, etc., etc., raspberries, blackberries, etc.; splendid well and windmill, water, hot and cold, in the house, which is a neat cottage of six rooms, hard finished, good barn, hennery, etc., all lies under the East-side ditch, and can be irrigated without difficulty; fronts on two streets and is very suitable for dividing into lots. The property is well worth the prices asked, and six months hence, at the present rate of advance, will be worth much more, even on speculation. 26500.

15 Acres, or 30 acres, or if desired, 46 scres, 3 mile outside the city limits, particularly adapted to grapes. This property set to vineyard and two years old, would be worth \$250 per acre. It is all fenced, and is a most desirable property for the price, \$125 per acre, \$125 per acre.

with government land adjoining, will feed 500 head of stock. To any one who does not wish to be close to the city, this offers a rare chance for such a business. \$2500. 60 Acres, 100 acres can be ploughed, fine dark, rich loam, not cleared, about 1000 cords of wood growing on it; convenient to city; one of the very best locations in the county for early vegetables, tropical fruits, apricots, etc., no improvements, a sulphur spring on the tract. \$3000.

320 Acres, neat house of 4 rooms, small shed barn, 70 apricot trees, 47 stands of bees, honey extractor, etc., 1500 cords of wood, within convenient distance of the city, Admirably adapted to the growth of early vegetables, tropical fruits, etc; a fine spring of water on the land.

20 Acres & mile outside city limits, on one of the principal thoroughfares; about 13 acres in choice fruits, including apricot, apple, peach pear, orange, lemon, prune, nectarine, almond, plum, etc., good windmill, barn, house of six rooms, fine collection of flowers, etc. The location being higher than many other places, will commend it to those who cannot live on low ground. Being in the direction of the growth of the city it will constantly increase in value. Price \$3000.

10 Acres, % mile outside city, 600 orange irees in bearing, 500 [deciduous trees just coming into bearing, good well, house of six rooms, unfinished inside, good barn, % acre of table grapes. \$4700

18 Acres, \$4\text{ mile outside city, 4 acres in grapes 2 and 3 years old, 1% acres in irruits just in bearing, good well and windmill, small barn, good hard fluished house of six rooms and milk cellar underneath; finely situated for growing grapes, peaches, oranges, apricots, etc, plenty of wood on the place for household use. This property is a bargain at \$3500.

10 Acres in the Duarte, one of the very best fruit districts in the county, 5 acres in bearing trees, 25 acres additional cleared. no other improvements, the brush not even off, is just as good land as is being sold for \$100 per acre, in the same neighboroco

S Acres in the san farse; Kancho. 7 miles from the city and facing on the S. P. R. S. on one side and the Los Angeles river on the other. This tract is one of the very best now in the market, and is particularly adapted to the growth of all fruits and vines, and especially small fruits. There is a running spring on the place which will furnish twice as much water as can be used on the land. This tract is commended without any qualification and is very clean at the price. \$100 near each The Baby Show and the Fifty

used on the land. This trace is continued without any qualification and is very cheap at the price. \$100 per acre. 20 Acres one mile outside city limits, west; 6 acres in fruits, mostly deciduous, including apple, peach, plum, cherry, apricot, nectarine, fig. aimond, etc.; a few orange actions to be a few orange and the second state of the second sec ing apple, peach, plum, cherry, apricot, nectarine, fig. simond, etc.; a few oranga and lemon trees; 4 acres in four year-old vines, Muscat, Flaming Tokay, Blau Elbe, Mission; 4 acres in two-year-old vines and 2 acres in one-year-old vines; two wind-mills and fine tank house; a splendid collection of plants from this State, and many from Arizona and New Mexico; fine hedge in front of lawn; the most haudsomely finished house in or around the city, 6 rooms on the first floor and servants rooms above; good bern and carrisage-house; henery, duck pond, etc, This is one of the most delightful places about Los Angeles, Is being sold only because the owner is leaving the city. Price, \$13,500.

17 Acres one mile outside city, south; 5 acres in choice varieties of grapes; 1 acre in alfalfa; about 1000 trees, including apple, orange, pear, lemon, peach, fig. apricot, cherry, walnut, etc., nearly all in bearing; blackberries, raspberries, etc.; 2 acres in pumpkins, 5 tons beets, corn, potatoes etc., etc., twice as much wood can be cut from the place each year as can be used.

excellent nouse, and initiated, two-story, six rooms, good and large closets, cup boards, etc.; beautiful lawn and hedges; convenient to one of the best graded schools in the county; on main road, and is in every respect a first-class property, and one of the few high-priced ones that will pay good interest on the investment headings.
